AITC acquires SunFocus Consulting Inc. to Expand Growing IT Business Offerings

AITC, a leading provider of information technology services to Fortune 1000 companies, today announced the acquisition of SunFocus Consulting Inc., a Texas company which designs and builds enterprise applications for telecom, media, financial services and other industries.

SunFocus is considered one of Irving's innovative information technology companies. SunFocus has core strengths in recruiting and retaining excellent employees in software and system architecture, which made it an excellent match with AITC's growing business offerings, said Ramki Chebrolu, President of AITC. The acquisition of SunFocus provides AITC with additional bandwidth to expand our client base as well as increase business with existing clients.

“SunFocus and all of its employees are very excited to be joining a dynamic and customer-centric company like AITC”, said Srihari Mudda, Vice-President of SunFocus. “We look forward to leveraging AITC's broad range of services to enhance the offerings to our existing customers, and to use our experience to achieve accelerated growth for AITC's clients”.
